

### **Welcome to the course on Presentation Skills.**

Presentations are part of the working routine for both students and working people. It is an important skill that helps us get our message across to a group of people. A presentation can be used in many different kinds of situation. It may be designed to entertain people. It can be used to inform people. Its purpose can be to persuade people. A presentation made be used to seek other peoples' opinions. These, and many more reasons, lie behind why we give presentations. However, whatever the purpose a presentation needs to *communicate well*. The connection needs to be made with the audience.

The aim of the course is to help you get *your message across clearly to your audience* when you are making a presentation in English. The course will give you knowledge of good presentation principles for creating the structure, using visual aids and tools and managing your use of English. These principles will help to make your presentations more effective. However, presentations are about personal style. This is something you learn by observing others and practicing yourself. So, this class will have a very practical orientation.

### **During the course you will:**

- Learn how to plan a presentation.
- Learn how to make effective use of visual aids.
- Learn how to use body language and other signals.
- Have opportunity to improve the use of your English listening, speaking and writing skills.
- Have the opportunity to practice and develop your presentation skills.

## PRESENTATION SKILLS – POSTGRADUATE

### **Course teaching approach**

This class has an applied rather than a theoretical orientation. So the class will involve introduction of good presentations principles. These will be presented by me using PowerPoint. We will review examples of presentations from businesses and have case discussion about these. However, the practical orientation will mean that every third week we will have class presentations. These will be made in groups, recorded and the class and I will give feedback.

### **Assessment**

The course will be assessed as follows:

Action	Percentage of course credit	Notes
In class presentations	65%	☛ Please note there is no mid term or final. ☛ Absence from a presentation will lead to a zero mark for that classes' assessment (for that individual).
Quizzes	30%	☛ Multiple choice
Other class participation	5%	☛ In class contribution (see previous bullet).

I am looking forward to our semester together!

Professor James Stanworth
