

Grrrrrrrr

Check the introduction – I expect the best from the best students

Check that introduction structure

The start is smooth and well controlled but the structure is not good

Content = agenda

The next one – this is not a signal

Title – check – use ChatGPT to refine it

Focus in Africa – which countries – think Segment think Target

Expanding McDonald's foot print in Africa – better presentation title

Reduce the words on the slide

ANIMATE

Watch for the dancing hand

Let's give it to the next one – no

*give her one.* =have sex with *her* (British *slang*, coarse) · I'd *give her one* · *Slang* for inferring you want to shag a woman. · Out of 10, i'd *give her one*.

Now XXX will continue the presentation

Transportation costs

I'm hearing some signals first, second

ANIMATE

Third . . .

Do not forget opening and closing signals for the main parts

That is all I want to say on . . . ah a signal

## Summary

What is on the slide is bizzare (first two kind of work – last two are a bit random)

Develop supply chain

Localization

Into! Target countries would be better

Draw, here, what you have said before
