

Strong start – introduction is going well

We are talking about this because we are – this is really answering the question “why me / why us”

Agenda – You could add one more part

Animation is working nicely – great

Let’s begin with . . . :D Good I’m hearing the signal

Closing signal

Unless you have a cold / flu then take off the mask

Advantages – slide with target countries is great – speed, animation, all comes together in that part

Fourth / Fifth – yes I’m hearing signals

Logic is good – aligning market opportunities to products – very good.

Next Allen will continue to explain . . .

Do it this way:

Closing signal – that is about all I want to say on . . . / So that is Advantages

Now Allen will continue the presentation

Horrible icons – add something meaningful e.g., pictures of the market

the fourth – I’m hearing a signal

“fifth”

“recognition”

So this is our analysis – ok – I’m hearing the closing signal. Take pause here

Good use of notes

Africa is actually one continent that is very close and connected to nature

African market

Target markets
