

Good start – I'm hearing the main parts of the introduction

To begin with market potential – do not forget the signal here

Icons do not really help – Ok they are horrible! – get some meaningful pictures here

Good use of notes

This will require extensive capital investment (capital is the keyword here)

Do not forget to close – closing signal  
e.g., that wraps up advantages and disadvantages

Advantages – do not forget signals here e.g., we have identified three advantages  
signal – First xxxx

(not "last one")

Closing signal  
Now Niki will continue the presentation  
Flow is good – but add pauses and let the hands fall to your side

Direction with slides – few words is good

In conclusion [pause]

Key points here
